

# Metal and Cream

A spark of metal can make any space shine, from the table to the sofa. Adding pops here and there of silver and gold can draw the eye and create conversation, while creamy whites and blues can offset any harsh glares. The combination of metallic and soft cream is a power couple that doesn't show any signs of stopping. Juxtaposing metallic and cream products can create an elegant product display in any store. — *T.L.*

Pastel snack bowls are made of high-fired porcelain and titanium with an elegant matte finish. \$16.25. Pampa Bay. 973.784.4933. pampabay.com
