A Tour of Gifts

We in the gift industry know how important design is to product development and visual merchandising. But what about how gifts fit into daily lives and home décor? Five Las Vegas-based design leaders will create a 6,000-square-foot integrated kitchen and bath lifestyle showroom in the Las Vegas Design Center that will debut at the summer 2018 Las Vegas Market.

The vignettes will be designed by Jill Abelman, Andrea Miranda-Hall, Peggy Scinta, and Cary Vogel and Lance Robins, focusing on the kitchen and bath categories. Located in Building A of the World Market Center, the vignettes will remain open year round to serve as an inspirational showcase for the kitchen and bath category.

The challenge the five designers faced had the editors at *Gifts and Decorative Accessories* thinking about what kinds of items the gift industry has to offer that can influence the design of rooms around a home. From the living room and kitchen to the bathroom, master bedroom and beyond, take a tour with us and see how gifts can transform a house into a home.
